

Turn your data into a strategic asset

HOPEX provides a complete Data Governance solution addressing the main concerns of Chief Data Officers and Data Office expectations in a collaborative environment. The solution provides strong data modeling capabilities and easily connects with multiple data sources to quickly build data repositories.

Benefits

- Quickly build your shared data catalog using data discovery
- Build trust in your data by mastering data quality and implementing regulations
- Federate and communicate with your data community on a single collaborative platform

The solution supports all data stakeholder's missions (discovery, knowledge, quality, and compliance) and promotes data literacy through a free web portal and mobile app for all employees.

With HOPEX Data Governance, Chief Data Officers benefit from synergies with EA, BPM and GRC to better understand:

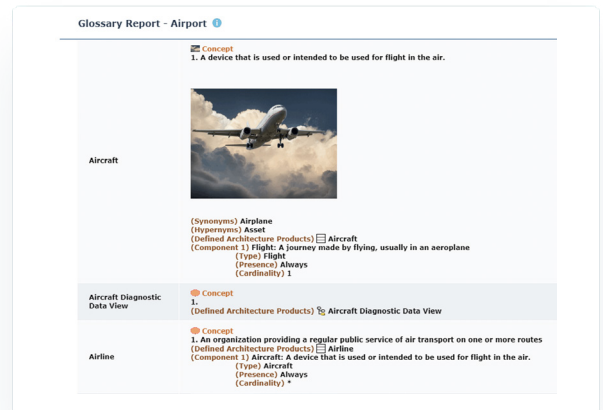

- how data is managed and exchanged between applications
- how data is used in processes
- how to manage data compliance aligned with GRC

Key Features

HOPEX Data Governance helps you manage and realize every step of your data journey.
